Repeat Rate effected with a lot of factors as Jaipur have the max number of passengers but with very low repeat rate % , with higher rate for Surat and Lucknow , its belong to the area tourism and service level . prices and competitive existence have a lot of effect for the total passengers still comparing service levels with other suppliers will effect too much the repeat rate % . we think that the more we go south the more we loos repeat rate and we can have its best in north.

Tourism Vs Business Analysis

Season	Month	visitors count
Summer	May	6000000
Summer	April	6510000
Monsoon	July	7760000
Summer	March	8600000
Winter	January	9590000
Winter	February	10030000
Winter	December	10500000

 - ☐ Indore
 - ☐ Jaipur
 - ☐ Kochi
 - ☐ Lucknow
 - ☐ Mysore
 - ☐ Surat
 - ☐ Vadodara
 - ☐ Visakhapatnam

Comparing Tourism With Business Demand :
Business Demand Reach its Peak during the period of winter (Jan , Feb , Dec) with tourism highest Rates .
Business Demand Fail to its Bottom during the period of summer and Monsoon (April May) While Tourism Rate Decrease Also .
So Tourism may effect the business in a very direct relationship .
we recommend to increase the offers during the summer , and to have more advertising plans during the winters targeted for tourists through social media and internet platforms , ATL With more Focus , BTL .
